

Gibbs Middle School ADDENDUM #02

Arlington, MA

Request for Qualifications (RFQ) for Trade Contractors GMP #1

Issued February 01, 2017 - #17-07

This hereby amends the IFB for Trade Contractors GMP #1 #17-07 as of February 08, 2017:

Trade Contractors must acknowledge that they have incorporated this Addendum, including all attachments, in their Bid.

Note: Trade Contractors are responsible for checking the website:

<http://www.arlingtonma.gov/departments/purchasing> for future Addenda prior to the bid date.

1. **Q:** What is the roof type being removed and replaced? Is it only the asphalt shingled roof on the 1973 addition? Is there any roofing work to be done on the 1928 building?

A: Based on the latest iteration of the drawings, the entire 1973 building and the rear annex of the 1928 gymnasium will be replaced. The main roofs of the gym, auditorium and academic wing will remain, though there will be cut and patching required on all roofs. The new roof materials being installed will be a mix of metal roofing and TPO on the 1973 and TPO on the 1928 annex. This is subject to change as we further evaluate material cost and warranty during the construction drawings phase in design.

2. **Q:** In the category section you list section #015100 temp power & Lighting. Can and Electrical Trade Contractor prequalify for that section?

A: Yes. Please see Addendum #01 for this RFQ. #015100 temp power & Lighting has been changed to #015100 Enabling Electrical.
